Policy Number	HCT-HS-002
Version	2
Applicable To	All Members of the Horizon Community
Document Owner	Kath Shanahan
Last Amended	January 2023
Review Period	Annually
Availability	Policies & Procedures Folder, SharePoint, Learners and Community Members Handbook, Company Website

Purpose

The purpose of this Policy is to ensure that Horizon Community Training (Horizon) is a safe and healthy working environment in accordance with the Health and Safety at Work Act 1974 (HASAWA).

Horizon is fully committed to providing a safe working environment. We undertake to implement whatever precautionary measures are possible in order to prevent accidents and exposure to causes of work-related ill health.

Health, Safety and Well-being is a crucial ingredient of all Horizon's activities. We will, as far as is reasonably practical, safeguard the health, safety and well-being of all members of the Horizon Community and others who may be affected by Horizon's activities.

Principles

This Policy not only ensures that Horizon complies with all relevant statutory and regulatory provisions, but also puts in place additional measures.

As far as is reasonably practical Horizon will:

- Create and maintain a proactive attitude to promote a positive health and safety culture which supports risk control at all levels
- Ensure that the health, safety and well-being of all its community members on its premises or during any of Horizon's activities are not put at unreasonable risk
- Thoroughly identify and control risks that could lead to injury, work related ill-health (including mental well-being) or loss of life
- Maintain safe spaces and systems of work and/to protect all its community members including the public in so far as they come into contact with a foreseeable work hazard
- Effectively manage the activities of all third party/outside contractors (when working with/for Horizon) to ensure where possible they are working in accordance with this policy, they will be, routinely inspected, supervised and may have additional controls put in place. This aim may also be achieved in part by asking and approving copies of the contractor's Safety Policy and other relevant documents
- Investigate all accidents, near misses, sickness and any incident that may affect health and safety
- Bring this policy to the attention of all Members of the Horizon Community. This will be achieved at induction for members. It will also be available on request and to view online on the Horizon's website
- Undertake risk assessment for all relevant activities
- Embed in all our programmes clear instructions regarding the conduct of relevant activity
- Undertake the training of staff and learners in the safe handling, storage and use of hazardous substances
- Ensure equipment is maintained to a high serviceable standard
- Ensure that members of the Horizon are always equipped with the appropriate and necessary equipment in order to carry out their activities and required Personal Protective Equipment (PPE)
- Maintain compliance with Management of Health and Safety at Work Regulations (1999) and other relevant Acts, Regulations Standards, and Guidance governing H&S
- Hold employer/employee updates on health, safety and well-being matters
- Train and guide individuals before allocating them to a health and safety function
- Provide easily and quickly accessible first aid stations throughout the centre, clearly identified and regularly checked to ensure they are fully stocked with necessary equipment
- Establish emergency procedures, eg evacuation in case of fire or physical injury to a person
- Conduct regular emergency procedure drills

- Conduct a regular review and if necessary, revision of this policy, provide information, instruction and training necessary to ensure member of the Horizon are able to perform their activities safely and correctly

Horizon operates a culture of zero tolerance to non-compliance of health and safety issues. Any and all breaches will be investigated and may result in disciplinary action.

Roles and Responsibilities

Designated Health and Safety Officer

The implementation of this policy is the responsibility of Horizon 's Designated Health and Safety Officer who will:

- Aim to prevent accidents, injuries and work-related illnesses in the workplace
- Create and implement health and safety policies in accordance with the latest legislation and to ensure that these policies are implemented by everyone at Horizon
- Maintain this policy and ensure it is regularly updated to reflect any changes to the law and ensure that each member of staff is aware of and adheres to this policy
- Undertake regular inspections and risk assessments and ensure that any hazards or defects are rectified
- Maintain an accident book and must record and investigate any accident, recommend any improvements in safety standards if required. Where appropriate, will notify the Health and Safety Executive (HSE) and other accounting bodies
- Maintain a central record of risk assessments, processes and plans for information and guidance
- Train all staff in safety issues and advise them on protective clothing and equipment where necessary
- Be the key contact for any member of staff and learners who has a query or concern regarding the safety of the workplace
- Be responsible for receiving, updating and communicating health and safety information both inside and outside of Horizon eg health and safety inspectors and trade unions
- Be responsible for safeguarding equipment and machinery, fire safety, noise, control of hazardous substances, manual handling, working with display screen equipment, and environmental health
- Maintain the first aid provisions to ensure they are effectively co-ordinated, including the provision and up keep of first aid boxes and the display of emergency notices
- Be responsible for producing the annual Health and Safety report
- Share examples and information of good practice and positively promote health and safety at every opportunity
- Advise staff on machinery and equipment purchased both prior to purchase, usage and where problems are identified

- Make recommendations for new policies, changes to existing policies and safety systems that are required. Develop policies and plans for the health and safety provision and work with others in managing their implementation
- Ensure that processes and procedures for managing an individual learner's needs are implemented relating to specific health, safety or well-being issues; these will have been identified at the enrolment stage, through past learning history or as a result of risk assessments
- Liaise with individuals from the learner's other support networks if appropriate

All Horizon Community Members are responsible for:

- Their own and others occupational health, safety, well-being, and safeguarding by conducting themselves and encouraging others to act in a manner that is safe and demonstrates consideration for the safety of others
- Ensuring that their working environment is safe and has undergone regular safety inspections
- Reporting all hazards, untoward incidents, accidents, and dangerous occurrences or omissions whether an injury has been suffered or not
- Reporting any interference with or misuse of anything provided for health and safety purposes such as PPE, First Aid kits, fire doors, fire exit doors and fire-fighting equipment these must be brought to the attention of the Designated Health and Safety Officer immediately
- Using equipment, tools and materials in a safe manner and only for the purpose intended. Such equipment, protective clothing and materials must be used when and where required and, if deemed necessary, under supervision
- Co-operating with the Horizon members in meeting any statutory requirements and approved codes of practice

Additional responsibilities of Horizon Members are:

- When planning and delivering activities, programmes and work, assessing and monitoring the learning environment, identifying hazards and giving consideration to the health, safety, well-being and safeguarding of those who may be affected by their work and activities
- Ensuring all lesson plans include any health and safety considerations and any risk associated with the lesson
- Ensuring that prior to commencement there are adequate safety, well-being and safeguarding arrangements in place to support their work/activity
- At the commencement of any activity briefing learners on the safety procedures and checking their understanding of the requirements
- Providing a high standard of supervision for the work/activity being undertaken
- Retaining the relevant competencies required for assessing, monitoring and supervising the environment

- Being willing to be trained as Fire Marshals

First Aiders

First Aiders will be appointed and trained.

Safety Representatives

Employees and learners will be given the opportunity to be a Safety Representative.

The representatives' roles include:

- Encouraging safety awareness and leading by example
- Taking part in risk assessments of all hazards within their team
- Advising on aspects of safety within the area for which they are responsible
- Assisting in the preparation and revision, where necessary, any safety procedures for Horizon
- Monitoring the effectiveness of safety procedures within their group
- Advising of any breach which they cannot satisfactorily deal with
- Assisting with investigations into accidents and incidents which occur within their area of activity

Communication Procedure

Horizon will consult with and inform its learners, staff and members through the following channels:

- The Horizon Community newsletter
- Team/learner updates
- General and staff specific notice boards
- Horizon's website

All members will receive an Induction to Horizon.

Followed by training in respect to:

- Safeguarding and prevention training session
- Fire awareness training and emergency procedures session

All members will be required to be Disclosure and Barring Service (DBS) checked at commencement of undertaking work on behalf of Horizon.

Visitors/Contractors

All visitors/contractors will be briefed on Safeguarding and fire safety requirements upon arrival at reception and given a visitor pass with the relevant safeguarding reporting card.
